Since 2018, the winery Bernard Rion harvests grapes from Côte de Beaune. To optimise the quality of all our wines, we sort out strictly the grapes, exactly the same way from our regional wines to our best appellations.

It is in our winery, in Vosne Romanée, that the magic happens. The fermentation will be with traditional handcrafts in oak barrels of 228 liters. After a family tasting to decide the perfect time, the bottling will be done in the winery. We want to be sure that our wines are ideally matured for your table !

Chassagne-Montrachet 1er cru Les Chenevottes

White Wine from Chardonnay grape

This wine from chardonnay grape is produced in a plot called "En Chenevottes" located nearby the famous Montrachet Grand Cru.

This wine has some flowery aromas with hawthorn and is mineral with a hint of flint. In the palate, we feel fresh butter, by ageing it will get some honey aromas.

You can open this wine for the aperitif or with grilled fish or white meat.

Serve at 12°C (53.6°C)
