Since 2018, the company Bernard Rion Sarl selects grapes from this appellation and vinifies it traditionally using the knowledge of the past generations. After a first beautiful harvest, the Domaine Armelle and Bernard Rion do the fermentation in the winery in Vosne Romanée.

It is in our winery, that the vinification transforms the grapes into a beautiful nectar. First the grapes are fully destemmed, then we do a traditional fermentation in concrete and open vats. After the press, we keep the wine in oak barrel of 228 liters for one year.
